Journal of Research in Reading

Indexes for Volumes 7–11

Author index

Bensoussan, Marsha and Laufer, Batia Lexical guessing in context in EFL reading comprehension **7**(1), 15–31

Beveridge, M. and Griffiths, V. The effect of the pictures on the reading processes of less able readers: a miscue analysis approach **10**(1), 29–42

Briggs, Pamela and Underwood, Geoffrey The nature of reader ability differences in lexical access **10**(1), 57–74

Campbell, Robin Oral reading errors of two beginning readers **10**(2), 144–155

Cataldo, Suzanne and Ellis, Nick Interactions in the development of spelling, reading and phonological skills **11**(2), 86–109

Fagan, William T. and Eagan, Ruth L. Cues used by two groups of remedial readers in identifying words in isolation **9**(1), 56–68

Gambrell, Linda B., Bradley, Virginia, N. and McLaughlin, Elaine M. Young children's comprehension and recall of computer screen displayed text **10**(2), 156–163

Greaney, Vincent and Hegarty, Mary Correlates of leisure-time reading **10**(1), 3–20

Harding, Leonora M. Reading errors and style in children with a specific reading disability **7**(2), 103–112

Hartley, James and Trueman, Mark The effects of the typographic layout of cloze-type tests on reading comprehension scores **9**(2), 116–124

Hatta, Takehiko and Hirose, Takeshi Reading disabilities in modern Japanese children **11**(2), 152–160

Hicks, Carolyn Remediating specific reading disabilities: a review of approaches **9**(1), 39–55

Johnston, Rhona S., Rugg, Michael D. and Scott, Tana Pseudohomophone effects in 8 and 11 year old good and poor readers **11**(2), 110–119

Kagan, Dona M. Evaluating an individualised reading programme **11**(1), 15–25

Kozminsky, Ely and Graetz, Naomi First versus second language comprehension: some evidence from text summarizing **9**(1), 3–21

Lasisi, M.J., Falodun, Sola and Onyehalu, A.S. The comprehension of first and second-language prose **11**(1), 26–35

Mommers, M.J.C. An investigation into the relation between word recognition, reading comprehension and spelling skills in the first two years of primary school **10**(2), 122–143

Moore, Phillip J. and Skinner, Michael J. The effects of illustrations on children's comprehension of abstract and concrete passages **8**(1), 45–56

Moore, Phillip J. Reciprocal teaching and reading comprehension: a review **11**(1), 3–14

Nehr, Monika and Riehl, Astrid Learning to read foreign languages: some new experimental evidence **7**(1), 3–13

Newman, S.P., Karle, H., Wadsworth, J.F., Archer, R., Hockly, R. and Rogers, P. Ocular dominance, reading and spelling: a reassessment of a measure associated with specific reading difficulties **8**(2), 127–138

Niemi, Pekka and Virjamo, Markku Proofreading: Visual, phonological, syntactic or all of these? **9**(1), 31–38

Nix, Gary W. and Shapiro, Jon Auditory perceptual processing in learning-assistance children: a preliminary report **9**(2), 92–102

Oakhill, Jane, Yuill, Nicola and Parkin, Alan On the nature of the differences between skilled and less-skilled comprehenders **9**(2), 80–91

Parish, Charles and Perkins, Kyle Factors influencing anaphoric processing in ESL reading comprehension **8**(2), 106–115

Parkin, Alan J. The influence of lexical and

structural variables on lexical decision and syllable judgement tasks **8**(2), 116–126
Parkin, Alan J. and Ilett, Alison Context and the spelling-to-sound regularity effect in pronunciation **9**(1), 22–30
Perkins, Kyle Measuring ESL readers' ability to apply reasoning in reading: a validity study of the TOEFL reading comprehension subtest **11**(1), 36–49
Potter, F.N. Oral reading errors: part of speech effects and their theoretical and practical implications **10**(1), 43–56
Pumfrey, Peter D. Rasch scaling and reading tests **10**(1), 75–86
Reilly, Ronan G. Control processing versus information processing in models of reading **8**(1), 3–19
Riding, R.J. and Pugh, J.C. Dark-interval-threshold, illumination level and children's reading performance **10**(1), 21–28
Rye, James Cloze and intersentential constraint **7**(2), 113–122
Rye, James Are cloze items sensitive to constraints across sentences? A review **8**(2), 94–105
Sahu, Shantilata and Devi, Gita Reading ability and information-processing strategies **7**(1), 33–40
Schlapp, Ursula and Underwood, Geoffrey Reading, spelling and two types of irregularity in word recognition **11**(2), 120–132
Seymour, Philip H.K. and Evans, Henryka M. Developmental arrest at the logographic stage: impaired literacy functions in Klinefelter's XXXY syndrome **11**(2), 133–151
Sheldon, Susan A. Comparison of two teaching methods for reading comprehension **7**(1), 41–52
Simpson, Greg B. and Lorsbach, Thomas C. Automatic and conscious context effects in average and advanced readers **10**(2), 102–112
Snowling, Maggie, van Wagtendonk, Bente and Stafford, Carolyn Object naming deficits in developmental dyslexia **11**(2), 67–85
Stierer, Barry School reading volunteers: results of a postal survey of primary school head teachers in England **8**(1), 21–31
Thompson, G. Brian Self-corrections and the reading process: an evaluation of evidence **7**(1), 53–61
Thompson, G. Brian Orthographic structures: grapheme patterns in child and adult texts **8**(1), 32–44
Tommola, Jorma Facilitation and inhibition of word recognition in skilled reading: effects of different neutral contexts **10**(2), 113–121
Tudor, Ian Advance organisers as adjuncts to L2 reading comprehension **9**(2), 103–115
Turner, Irene F., Scullion, Laura T. and Whyte, Jean Relationships between reading proficiency and two types of classificatory ability **7**(2), 123–134
Valtin, Renate German studies of dyslexia: implications for education **7**(2), 79–102
Wilsher, C.R. and Taylor, J.A. Tinted glasses and dyslexia **11**(1), 50–52
Wolk, Steve and Schildroth, Arthur Consistency of an associational strategy used by hearing-impaired students **7**(2), 135–142
Wolk, Steve and Schildroth, Arthur A longitudinal study of deaf students' use of an associational strategy on a reading comprehenion test **8**(2), 82–93

Subject index

Advance organisers Tudor **9**(2), 103–115
Auditory perceptual processing Nix and Shapiro **9**(2), 92–102
Classificatory ability Turner, Scullion and White **7**(2), 123–134
Cloze procedure Rye **7**(2), 113–122; Rye **8**(2), 94–105; Tudor **9**(2), 103–115
Comprehension Bensoussan and Laufer **7**(1) 15–31; Kozminsky and Graetz **9**(1) 3–21; Lasisi, Falodun and Onyehalu **11**(1), 26–35; Mommers **10**(2), 122–143; Moore and Skinner **8**(1), 45–56; Moore **11**(1), 3–14; Oakhill, Yuill and Parkin **9**(2), 80–91; Parish and Perkins **8**(2), 106–115; Perkins **11**(1), 36–49; Sheldon **7**(1), 41–52
Computer screen display Gambrell, Bradley and McLaughlin **10**(2), 156–163
Context Parkin and Ilett **9**(1), 22–30; Simpson and Lorsbach **10**(2), 102–112

Cues Fagan and Eagan **9**(1), 56–68
Dark-interval-threshold Riding and Pugh **10**(1), 21–28
Deaf students Wolk and Schildroth **8**(2), 82–93; see also hearing impairment
Development dyslexia Snowling, van Wagtendonk and Stafford **11**(2), 67–85
Disability-reading Hatta and Hirose **11**(2), 152–160; see also specific reading disability
Dyslexia Valtin **7**(2), 79–102; Wilsher and Taylor **11**(1), 50–52; see also specific reading disability
EFL Bensoussan and Laufer **7**(1), 15–31
Errors in reading Harding **7**(2), 103–112; oral reading errors Campbell **10**(2), 144–155; Potter **10**(1), 43–56; see also miscue analysis
ESL Parish and Perkins **8**(2), 106–115; Perkins **11**(1), 36–49
First versus second language reading Kozminsky and Graetz **9**(1), 3–21; Lasis, Falodun and Onyehalu **11**(1), 26–35
Foreign language reading Nehr and Riehl **7**(1), 3–13; Tudor **9**(2), 103–115
Grapheme patterns Thompson **8**(1), 32–44
Hearing impairment Wolk and Schildroth **7**(2), 135–142; see also deaf-students
Illustrations Moore and Skinner **8**(1), 45–56; also see pictures
Illumination level Riding and Pugh **10**(1), 21–28
Individualised reading Kagan **11**(1), 15–25
Information processing Reilly **8**(1), 3–19; Sahu and Devi **7**(1), 33–40
Klinefelter's XXXY syndrome Seymour and Evans **11**(2), 133–151
Leisure time reading Greaney and Hegarty **10**(1), 3–20
Lexical access Briggs and Underwood **10**(1), 57–74
Lexical decision Parkin **8**(2), 116–126
Lexical guessing Bensoussan and Laufer **7**(1), 15–31
Miscue analysis Beveridge and Griffiths **10**(1), 29–42; see also cues
Models of reading Reilly **8**(1), 3–19
Ocular dominance Newman et al **8**(2), 127–138
Pictures Beveridge and Griffiths **10**(1) 29–42; see also illustrations
Proofreading Niemi and Virjamo **9**(1), 31–38
Pseudohomophone effects Johnston, Rugg and Scott **11**(2), 110–119
Rasch scaling Pumfrey **10**(1), 75–86
Reciprocal teaching Moore **11**(1), 3–14
Remedial readers Fagan and Eagan **9**(1), 56–68; Nix and Shapiro **9**(2), 92–102
School reading volunteers Stierer **8**(1), 21–31
Self-corrections in reading Thompson **7**(1), 53–61
Specific reading disability Harding **7**(2), 103–112; Hicks **9**(1), 39–55; Newman et al **8**(2), 127–138
Spelling Cataldo and Ellis **11**(2), 86–109; Mommers **10**(2), 122–143; Schlapp and Underwood **11**(2), 120–132
Summarizing Kozminsky and Graetz **9**(1), 3–21
Syllable judgment Parkin **8**(2), 116–126
Tests of reading Perkins **11**(1), 36–49; Pumfrey **10**(1), 75–86
Typographic layout Hartley and Trueman **9**(2), 116–124
Word recognition Mommers **10**(2), 122–143; Schlapp and Underwood **11**(2), 120–132; Tommola **10**(2), 113–121
